SPECIAL SERVICE

The Men's Bible Class of the Christian Church announces through its president John Fansler, a special program for the class session on Sunday. Several members of the Government Sanitary Survey Corps will address the class. This class will begin a contest with the live bunch of men associated with the Christian Church at Somerset, Ky. From the standpoint of men now attending the Somerset men have the advantage of the men of the local church. But as the men of Mayville are loyal to their city, Somerset will be given a stiff contest by the Christian Church men.

Tires that did not require setting in thirty years—on a Studebaker

WHEELS are the life of a wagon. Hubs, spokes, felloes and tires of the best materials, put together by skilled workmen, go into every Studebaker.

What is the result? Mr. William H. Horton, of Nineveh, N. Y., writes that the tires on his thirty-six year old Studebaker farm wagon did not need resetting in thirty years—and the wagon was in use every day.

We can prove to you that this is not an exceptional Studebaker wagon. There are thousands of Studebaker wagons in use today that are forty years old and more. And that have cost their owners little or nothing for repairs.

Come in and look over our stock of Studebaker vehicles. Let us show you how well they are built.

GYPSIES TRAVELING BY FORD

A strange sight was seen on the Germantown pike on Sunday afternoon. A band of gypsies, numbering about 12, were seen traveling by Fords, they having possession of three of the machines. The days of romance are fast fading away. We suppose that instead of trading horses, these wanderers exchange tires or gasoline.

FREIGHT WRECK

On the Brokers' Sliding Yesterday Morning Causes Small Delay in Traffic on the L. & O. Railroad.

A small freight wreck yesterday morning about 9:20 o'clock on the east siding at Brokers, several miles below Mayville tied up traffic for some few minutes.

Second 38, a manifest train bound east, was backing into a siding at this point to allow passenger train Nos. 6 and 8 to pass. A brakeman forgot to throw a "derail," the result of which was the derailment of the engine and three cars of merchandise on the siding. The remainder of the train blocked the main track and the passenger trains were delayed for about twenty minutes.

Section gangs were soon called and the wreck cleared away. The engine was partially demolished.

OUR BIG, SLOW CONGRESS

"Congress is too large," writes a Mississippi man in a letter to his paper. "Congress talks too much. Congress is too slow for modern times."

"Rip Van Winkle slowness in England and France has cost them much money and many valuable lives. We in America should profit by their mistakes. If we haven't a constitution in this country that will permit us to do things needed with lightning-like rapidity, then let us have one, and have it quickly."

"We are living in the fastest age of the world's history. We are living in times when we have enemies by land and sea, in the air and beneath the water. We see our trade and commerce sent out to the most remote corners of the earth, and our life interwoven with that of all nations. We have 100,000,000 people in America today, where there were only a few hundred thousand when our constitution was written."

"Too many people in congress, too much talk going on, too many incompetent men talking, and too slow action, are doing this country great harm. Reduce congress to one-fourth its present size and reduce the talking to one-fifth its present length, and let things be done in keeping with the progress of the age."

There's a good deal of sense in this intentionally exaggerated criticism. We have had lamentable demonstrations lately of the inability of a ponderous, talkative congress to get things done promptly in a great crisis. A smaller body would naturally be made up of bigger men. It would have stronger leaders, and would be more amenable to leadership. It could not talk so much, on so many subjects, to so little purpose.

But what's the use of our talking about it? Congress itself is sole arbiter of its actions and sole judge of its size. When it had an excellent opportunity, after the last census, to adopt better membership rules, it deliberately added several dozen congressmen instead of cutting down the number. After the next census it can probably be depended on to keep up the old ratio of congressmen to population, efficient body for the transaction of the nation's business.

ROOSEVELT

A large part of the American public would like to see Theodore Roosevelt fighting in France. The general staff objects, because his project doesn't fit in with the carefully worked out plans of the department. Congress, without being anywhere near unanimous about it, "authorizes" the president to raise and dispatch such a volunteer force as the Colonel wants. President Wilson, accepting the judgment of the army staff, turns down the plan.

There has been a good deal of time and energy wasted over this proposal, particularly by congress. It was allowed to hold up important legislation for several weeks, when it might just as well been handled in the form of a separate bill. Public opinion has been unduly pulled and handled, and politics have been injected into a matter with which politics ought to have nothing to do.

The public would still like to see Col. Roosevelt go to France. It is more interested in sentimental than in strategic considerations. And sentiment has its place in the war. The idea of Roosevelt at the front, in whatever capacity, appeals to the imagination. Most Americans will therefore agree that if he could get there without throwing a monkey wrench into the army system, he ought to go.

The governor of New York has opened a way by offering to make Roosevelt major general in command of the National Guard of the Empire State. That would give him a body of troops highly respectable both in numbers and in training. Inasmuch as the National Guard is to be mustered into the regular army and sent abroad following the dispatch of Gen. Pershing's expedition, Col. Roosevelt may realize his ambition and his friends may be satisfied.

If Roosevelt accepts this offer, he will no doubt be assured of general public support and full co-operation on the part of the war department.

It has just about got so in this country that some folks would feel like martyrs if drafted from the poolrooms into the truck patches.

Another thing—why should girls try to keep from loving soldiers when everybody else loves them?

About the only thing Congress can agree on is that it does not want to agree.

THINK AMERICANS ARE TANGO LIZARDS

Philadelphia, May 28—"If Russia stacks arms and German submarines continue to litter the ocean with corpses of the merchant marine Uncle Sam will have to bear the brunt of the great battle practically alone," declared James W. Gerard, former Ambassador to Germany, at a meeting here last night.

"The Germans think that the Americans are tango lizards and male mannequins. 'You're a lot of fat people who are all for money,' German officers told me before I left Germany. 'You might lend the Allies a lot of money, but you couldn't do anything else. You have no men. Your people would not go to war. You could not make them fight.' This is the impression throughout Germany."

INTERIRED GERMANS HOUSED IN MOUNTAIN RESORT HOTEL

Washington, May 26—Mountain Park Hotel at Hot Springs, N. C., has been taken by the Government to house some of the 2,000 interned Germans, most of them sailors from the German merchant ships. All who cannot be cared for there will be taken to Government lands in Western North Carolina as soon as quarters can be made ready.

SOLDIER SHOTS AT CROWD

Henderson, Ky., May 27—A large crowd of pleasure seekers who had taken refuge from a storm on the local wharfbrook today were thrown into a panic when a fight broke out between members of the Indiana National Guard and civilians.

A soldier was thrown into the river by an angered citizen and he fired into the crowd when rescued.

Charges that soldiers, following the melee, held rifles at the heads of two brothers who had figured in the fight, while other members of the guard beat them with pistol butts, have been preferred and civil warrants have been taken out for several members of the guard.

Sergeant Elmer Conover, accompanied by a young woman, was standing on the wharfbrook when Walter Gibson, a civilian, bumped into him when an excursion boat struck the wharf. When Gibson tried to apologize, it is alleged, the soldier struck him. Gibson hurled Conover into the Ohio river.

PICTURE OF MAN WHO CANNOT DRINK WILL BE HUNG IN EVERY BARROOM IN COUNTY

Sea Side Heights, N. J., May 27—Emory Peck, of this resort, has been sentenced to stay sober 15 years and to have the Sheriff place his picture in every barroom in Ocean county.

Peck, who has been a drinker for many years, was convicted of setting fire to a neighbor's house while intoxicated, and Judge Jerrey gave him his choice of a sentence of 15 years in prison with \$1,000 fine, or a sentence to remain sober for 15 years. Peck chose the latter.

This means that he will be required to report every two weeks for 15 years to the probation officer of the Court and show that he has not taken any intoxicating liquor at each time of reporting.

WAREHOUSE DESTROYED

Louisville, Ky., May 27—Tobacco valued at more than \$200,000 was destroyed at an early hour today when the Farmer's Tobacco Warehouse, covering a quarter of a block on the northwest corner of Tenth and Main streets, was leveled by fire. The entire loss is estimated at \$250,000.

The fire was discovered 15 minutes after an electrical storm. It is the belief of firemen that a bolt of lightning set fire to the building.

The structure was two stories in front and three stories at the rear. Various tobacco brokers had offices in the building.

FISH FELL "ALL LIT UP"

Noblesville, Ind., May 27—The fish of Stony Creek, one mile south of this city, availed themselves of an opportunity today to go a spree. They flattered around in the water like summer flies on an August evening, while the crack of broken glass echoed in the distance.

Sheriff Waddell emptied 5,000 bottles of beer and 50 gallons of whiskey into the stream. Every bottle was broken. The liquor represented an accumulation from blind tiger raids that extended over a period of several months.

FOR HEROES ONLY

London, May 27—An official ban has been placed on the wearing of miniature war medals and decorations unless in the case of such persons to whom they have been actually awarded. A firm which recently manufactured miniatures of war honors, such as brooches, bracelets and lockets, has been informed that they will not be allowed to sell them. The idea is to prevent the cheapening of war honors.

A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. C. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years, ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today.

WOODEN SHIPS ARE OPPOSED BY GOETHALS

New York, May 26—Maj. Gen. Geo. W. Goethals, speaking informally last night at the annual dinner here of the Iron and Steel Institute, declared that the proposal to build one thousand 3,000-ton wooden ships in eighteen months "is simply hopeless." For that reason, he said, it had become necessary to turn to steel as well as wood.

"I had a conference with Mr. Farrell and he promised to see the programme carried out if we turned to steel, and he promised also to turn out three million tons of steel ships in eighteen months," said Mr. Goethals.

"As the shipping built will ultimately go to the merchant marine, if they escape the submarine, they should be far as possible of steel construction. I want the institute to get back of Mr. Farrell and to carry out the promise."

"The shipyards are full. I have asked for legislation to prevent the laying down of ships for anyone but us. I want to enlist the co-operation

THIRTY STARTERS

Cincinnati, May 29.—With thirty starters assured after the elimination trials of Saturday and Sunday, when cars entered were compelled to make a speed of 90 miles an hour in order to qualify, the Decoration Day race at the Cincinnati Speedway promises to be the most notable event of the year on the tracks. Not only is this the classic that probably will face the flag during the present season, but the prize money, aggregating \$25,000, also exceeds in value any purse offered so far for the major contests of the speedways.

The fact that the various racing cars entered now are at their highest efficiency; that Ralph De Palma's experiments with an aeroplane motor in a racing car seem to have reached a high degree of success; that the famous Mercer team again is back in harness; that several new star drivers, including Billy Taylor, winner at Uniontown, and Louis Fontaine, piloting a Mercedes, will battle with such veterans of the track as Oldfield, Earl Cooper and Louis Chevrolet, and that some of the cars have gone better than 115 miles an hour in sprints, give the greatest variety of angles of interest to this contest.

While the 250-mile international sweepstakes race—the big event of the day—will not be called until 2:30 o'clock, there will be a series of interesting features offered during the entire day, beginning at 9 o'clock. Two aerial battles, staged by Ruth Law, Katherine Stinson, Baxter Adams and Billy Brock; a 20-mile race for Ford's, and a 30-mile free-for-all, will be among the special events which will make Cincinnati's Memorial Day program the most varied and fascinating outdoor sports carnival ever offered anywhere.

\$10 LOAN PARTICIPATING CERTIFICATES PLANNED

Washington, May 26.—Federal Reserve banks throughout the country are considering distribution of \$10 participating certificates, similar to those already used in New York, to aid prospective purchasers of small bonds. Whatever action is taken will be by the banks individually as agents of the government and not by direction—although probably with permission—of the Federal Reserve Board.

Officials of the board, however, are deeply interested in the plan, and have been following the New York program closely. The treasury today inaugurated its policy of redistributing among subscribing banks a portion of the proceeds of treasury certificates of indebtedness which will be expended in distribution of the proceeds of the Liberty Loan when installments were paid. Of the \$200,000,000 obtained from the last offering of certificates of indebtedness about \$128,000, was deposited among banks which took the issue subject to call out at interest rate of two per cent. It was intimated that the policy would be continued with reference to further offering of certificates where practicable.

Another offering of \$200,000,000 probably will be made within the next ten days.

WILL FILED

In the Mason County Court this morning a paper bearing the date of August 14, 1916, together with a codicil of date of April 3, 1917, purporting to be the last will and testament of Jennie McKinnon, deceased, were produced in court and ordered filed. The due execution of the original paper was proven by the testimony of John L. Whitaker and Elbert Trisler, attesting witnesses, and the codicil by the testimony of John L. Whitaker and W. S. Yazel, attesting witnesses, and admitted to probate.

Mr. Frank Nash of East Second street spent Sunday with friends in Ashland, Ky.

DISRUPTION OF AMERICAN ASSOCIATION AND INTERNATIONAL CIRCUIT PLANNED

Chicago, May 26.—Existence of a plot to wreck the American Association and form a third major league was revealed at a special meeting of the association today. The meeting was for the purpose of formally annulling the inter-league series of forty-eight games with the clubs of the International League. The vote for the cancellation was unanimous.

The plan to disrupt the association was outlined in a statement issued by Thomas J. Hickey, president of the organization. Declining to mention the names of persons alleged to be back of the movement, Hickey said, that a meeting of the association club owners would be called in the immediate future and "all members will act" in concert to defeat such disrupting efforts.

Joe Tinker, president and manager of the Columbus club, said he understood a plan for the formation of a third major league included disruption of both the American Association and International Leagues. The four leading cities in each organization were to be selected to make up the new league, he said.

The club owners pledged themselves to reduce the salaries of high priced players twenty-five per cent to fifty per cent. Players refusing the reduction will be released, it was announced.

PROSECUTION AWAITS FOES OF REGISTRATION

Washington, May 27.—Criminal prosecution awaits persons who attempt to prevent registration under the war army bill for propaganda or otherwise. Attorney General Gregory announced tonight that his attention had been called to the circulation of propaganda designed to discourage registration and that the government would deal vigorously with such cases.

"Such action is a plain violation of the law," said Mr. Gregory, "and the department of justice is prepared to prosecute promptly any persons guilty of such conduct. The officers and agents of the department throughout the country have been instructed to watch carefully for infractions of this law."

"In addition to the penalty provision contained in the act which makes evasion a criminal offense, section six of the federal penal code, makes it a criminal offense punishable with not more than six years imprisonment for any two or more persons to conspire together to hinder, prevent or delay the execution of any law of the United States."

PEASANTS STARE AS ROMANOFF FAMILY PLANTS POTATOES

Petrograd, May 26.—Mr. and Mrs. Nicholas Romanoff, with the Misses Romanoff and Master Romanoff, have joined the back-to-the-soil movement.

They are planting and hoeing potatoes in the park of Tsarokoe-Selo palace—where the same group, when they were known as the royal family, used to deal out life and death to Russians.

The spectacle of the seven members of erstwhile royalty garbed in peasant's clothes and doing peasant's work was enjoyed by a big audience today.

SWEDISH STEAMERS SUFFER HEAVILY FROM U-BOAT WAR

London, May 25, 2:45 a. m.—Six Swedish steamers have been sunk while on voyages from Sweden to Finland in the Baltic sea, says of Renter dispatch from Stockholm. Three Swedish steamers, the dispatch adds, have been captured and taken into Swinemunde, Germany.

TEN WEEDS ARE OF FOOD VALUE, SAYS HOUSEWIFE

Chicago, May 22.—As a remedy for the soaring prices of foodstuffs Mrs. W. K. Jaques, of 4318 Greenwood avenue, weed expert, urges housewives to use weeds on their tables. She was their champion long before war compelled nations to be concerned about famines. Mrs. J. C. Bley, of the Housewives' League is lecturing about their value to farmers' wives. And the lowly weed is coming into its own, to Mrs. Jaques' delight.

At her farm, The Terrace, near South Haven, Mich., Mrs. Jaques encourages all the weeds to grow. She has made a study of each weed's utility and beauty. But, most of all, she values them for food.

"There are ten weeds that can be used for food," she said. "These are the dock, nettle, sorrel, purslane, milkweed, lamb's quarter, pigweed, marsh marigold, brake fern and dandelion. They make excellent greens and are nourishing."

Give Minerals to Body
"City housewives, however, will find only three out of the ten available for their use—dock, dandelion and lamb's quarter. The other seven grow in country places."

"The dandelion is universal, every one knows it, everywhere. The dock is seen on vacant lots, and lamb's quarter may be known by its dull green leaf with silvery gray lining. "As greens, they give the minerals for the body, and when cooked with thin slices of fat, a nourishing food. All weeds should be cooked alike."

"Purslane, commonly called 'pussly,' is edible. Chinese are fond of it, and it is found in well cultivated gardens. Purslane will not grow any place else and it can't stand competition. "These aggressive plants decurating the vacant lots of the city make a good war time food. Improvement associations make the mistake of attacking weeds just because they are weeds."

Always Do Game
"Weeds are imported from the old world. They follow man in civilization and never grow wild. They are the most human and most domestic of plants. They are never discouraged and always die game. When they can not have the best they take what they can get."

"They are the most intelligent of plants. They have had to fight such hard battles to escape destruction that they have all kinds of ways to get themselves carted about."

MOTHER IS FORCED TO LOOK ON AS GERMAN EXECUTE HER DAUGHTER

Geneva, via Paris, May 27.—La Suisse today prints details of a case similar to that of Miss Edith Cavell, the English nurse who was executed by the Germans in Brussels in October, 1915. The Germans, says the newspaper, recently arrested two women, Madam Pfeister and her daughter 22 years old, on the Swiss-Alsatian frontier. They were charged with acting as spies.

The women frankly admitted at the trial that they had smuggled letters without knowing their contents from Alsatian families to relatives in Switzerland. This was done simply as a friendly act and without political or malicious purpose.

Both women, says La Suisse, were shot at Neuhausen. The mother was a horrified witness of the execution of her daughter before her turn came.

The newspaper adds that it has received confirmation of the execution of the women from their relatives.

HAD FAITH OF GERMANY SHOWN BY BELGIAN ORDER

Harve, May 27.—The Belgian authorities today made public a copy of an order served by the Germans on the Belgians of Mons, as showing bad faith by the Germans in their announcement that the deportations had been stopped at the request of Pope Benedict.

The order, which is dated April 15, requires Mons to furnish 600 young men at a German cavalry barracks before noon of the following day, equipped with clothing, shoes and provisions.

The city is notified that it must pay 300 marks for every man not furnished. The Belgian authorities say the indications are that the deportations will be extended to women as the Germans are taking a census which includes women and young girls as well as men.

STRIKES IN FINLAND

Petrograd, May 26 (via London).—Strikes in all branches of industries throughout Finland are reported in a dispatch from Helsinki. In some districts strikes have been accompanied by acts of violence against the employers.

WORK THAT TELLS

Plenty of It Has Been Done Right Here in Maysville.

To thoroughly know the virtues of a medicine you must investigate its work. Doan's Kidney Pills stand this test, and plenty of proof exists right here in Maysville. People who testified years ago to relief from backache, kidney and urinary disorders, now give confirmed testimony—declare the results have lasted. How can any Maysville suffer longer doubt the evidence?

Henry S. Gallenstein, blacksmith, 124 W. Third St., Maysville, says: "My kidneys were out of order and I had pains through my back. Doan's Kidney Pills put an entire stop to the pains and my kidneys became well." (Statement given January 9, 1912.)

RESULTS THAT REMAIN
OVER FOUR YEARS LATER, or on November 14, 1916, Mr. Gallenstein said: "I haven't had any need of a kidney medicine since I last recommended Doan's Kidney Pills. This benefit they gave me has been permanent." Mr. Gallenstein is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mr. Gallenstein has twice publicly recommended.

RACE RIOT IN N. Y. AFTER ATTEMPT TO JAIL NEGRO

New York, May 26.—A negro was shot and killed by a policeman in a race riot near Sixty-second street and Amsterdam avenue tonight. Another was found with a fractured skull in a doorway.

The shooting followed a call for police reserves after trouble broke out between negro and white residents of the neighborhood. A number of persons were more or less seriously injured and many arrests were made. Two policemen were slashed on their hands with knives or razors wielded by negroes.

The clash occurred when a uniformed member of the Home Defense League attempted to arrest one of the negroes. A crowd quickly collected and a free-for-all fight started. Khaki-clad men, members of the various home defense units of New York, today patrolled the city streets and watch fronts in the place of several hundred of the regular police. The purpose was to give them a practical idea of the work they would have to perform if called upon in case of emergency.

"INHUMAN BARBARITIES"

New York, May 27.—More than 1,000,000 Armenians have lost their lives since the beginning of the war as a result of the "inhuman barbarities" practiced by the Turks, Henry Morgenthau, former Ambassador to Turkey, declared in an address here today.

"Among the methods of extermination employed," Mr. Morgenthau said, "were confiscation of property, forced exorbitant contributions and taxes, pillaging of homes under the guise of searching for arms, heating their victims to death and torturing them beyond imagination, forced conversion to Mohammedanism, deportation and massacres, partial and wholesale; women and children and old people not being spared."

"The reasons for the persecutions were fourfold: Political, economic, social and religious. Politically the Turks were unable to assimilate the Armenians. They resented bitterly the fact that the Armenians looked to Christian nations for help."

1,500 ESCAPE INJURY AS

TORNADO WRECKS TENT

Nicholasville, Ky., May 27.—Fifteen hundred persons were drenched, hats were blown away and clothes ruffled here last night when a furious wind snatched a Chautauqua tent from its pinning. The tent had been sheltering the crowd for more than an hour after all lights had been put out by broken wires. By a miracle no one in the crowd that scrambled from the fallen ropes and canvas was injured.

The crowd, attending a program of the Lincoln Chautauqua had hugged its seats in the tent to escape leaving in the thunderstorm that raged outside. The windstorm snatched the tent and tore it from the centerpole which was dragged down barely missing crushing persons in the crowd. People were engulfed under the canvas and entangled in the ropes but the whole crowd scrambled out into the downpour without hurt.

WOMEN AND CHILDREN ARE KILLED IN GERMAN AIR RAIDS IN DANUBE REGION

Petrograd, May 26, (via London).—During the last few days German aircraft have dropped bombs on towns situated in the Danube region, causing many fatalities. A raid on the town of Ismail, Cosacovia, was very destructive, a large number of women and children being killed and wounded.

ARE PROPRIETARY MEDICINES FRAUDULENT?

Undoubtedly, there may be some
that are, but on the other hand, there
are many proprietary remedies that
are as standard as any prescription
that any present day physician can
write, and in thousands of homes you
will find these old, reliable remedies
in every day use with satisfactory re-
sults. Such a medicine is Lydia E.

which, for nearly 40 years, has been
alleviating the suffering of woman-

most serious ailments of her sex. If

Among the number are the following:

truck wheel.

Scraps picked from the battlefield of
Gettysburg by Mr. Henry Dieterich 25
years following the battle.

BIG CUTTING SCRAPE

Mason Mills, Ky., (Special to the
Ledger)—A big light took place on Big
dun near here on last Saturday night.

McKee, three prominent young men of
this neighborhood, all 20 years of age,
being the combatants. Jones was
badly wounded, being cut several
times with a knife about his shoulders
and spine. He is under a doctor's
care and is reported in a serious con-
dition. The other young men received
several minor cuts and bruises.

The young men have engaged in
similar fights before, although none
have been so bloody. It is claimed
they were drinking before the trouble
started. Jones is a cripple, having
lost one arm several years ago in a
hunting accident. No arrests have been
made in the case so far but it is un-
derstood that the Jones boy will prose-
cute if he recovers.
